Abstract

Purpose
The purpose of this paper is to explore consumer attitudes towards ambush marketing and official event sponsorship through the lens of sentiment analysis, and to examine social media users' ethical responses to digital event marketing campaigns during the 2018 FIFA World Cup.

Design/methodology/approach
The study employed a sentiment analysis, examining users' utilization of sponsor and non-sponsor hashtags. Statistical modelling programme R was used to access Twitter's API, enabling the analysis and categorization of tweets pertaining to six marketing campaigns. Each tweet – as well as the apparent user motivation – was analysed.
